

Investor brief · confidential

Fair, private practice software for UK therapists.

B2B SaaS the therapist subscribes to — not a marketplace. Free to start, monetised by a small card commission and paid tiers, UK-first and privacy-by-design.

PROBLEM

UK therapists are stuck choosing between clunky generalist software, expensive marketplaces that take a cut and own the client, and a pile of spreadsheets. None are calm, fair, and built for them.

SOLUTION

One simple tool — clients, scheduling, secure video, payments, reminders, compliance — that the therapist owns. They keep the client relationship and the record; we're the processor, never the middleman.

MODEL

Subscription (Starter free · £39 · £79) + a small card commission (2.5 / 1 / 0%).
Recurring + usage, no marketplace risk.

MARKET

Tens of thousands of UK private-practice therapists (BACP/UKCP/NCPS), growing demand for accessible mental-health care.

MOATS

UK-specific compliance + PMI invoicing, fairness/ownership trust, opinionated simplicity, switching costs as the practice runs on it.

STATUS

Confidential — not for distribution.

Faresay Ltd · Company No. 17302034

Faresay Ltd incorporated (England & Wales, 17302034). Product live and UK-launching: onboarding, verification, payments (Stripe Connect), secure video, reminders, compliance + outcome tooling shipped.
