

FOR THERAPISTS

Your whole practice, in one calm place.

faresay.com

Faresay is the simple, private practice tool for UK therapists

— your clients, scheduling, secure video and payments

Faresay Ltd • Company No. 17302034 (England & Wales)

WHY THERAPISTS CHOOSE FARESAY

Fairer, simpler, yours.

Your clients stay yours

You own the relationship and the clinical record. Faresay is your tool — never a middleman, and never a marketplace taking a cut.

Keep what you charge

Set your own rate and hours. A fair subscription plus a small card commission — not a slice of every session.

Private by design

UK/EU data residency, encrypted, with a clear Data Processing Agreement. You stay the data controller.

Get paid automatically

Clients pay by card; the money reaches your bank about two business days after each session. No chasing.

Runs from your phone

Add Faresay to your home screen and run your whole practice from a phone — no computer needed.

Genuinely simple

Set up in ~15 minutes, plain-English help on every page. Built for therapists, not IT departments.

HOW IT WORKS

1

Add your clients

Invite by email or import your list — minutes, not hours.

2

Book sessions

Pick a time; we create a private video room and email your client.

3

Get paid

Connect payments once; money lands in your bank after each session.

EVERYTHING INCLUDED

One calm tool, no add-on packs.
